

# Statistics of International Trade

Nº 04/2011

Includes baseline data from Statistics Portugal for the international trade of Portugal

■ january to february of 2011 - Intra + Extra-EU Trade

---

## Contents

### Global Evolution

1. Recent Trade Balance	Pag. 3
2. Trade Balance with and without energy products	4
3. Trade Balance – aggregate data (Intra+Extra)	4
4. Monthly and quarterly evolution	5

### Exports of Goods

5. By Group of Products (Intra+Extra)	6
6. By Group of Products (Extra)	7
7. By Group of Products – growth rate and contribution to growth	8
8. From selected markets (Intra+Extra)	9
9. From selected markets (Extra)	10
10. By destination market – structure (%)	10
11. By destination market – growth rate and contribution to growth	11

### Imports of Goods

12. By Group of Products (Intra+Extra EU)	12
13. By Group of Products (Extra EU)	13
14. From a selection of markets (Intra+Extra)	13
15. From a selection of markets (Extra)	14

### By geographical and economic areas

16. Main Countries (Intra and Extra)	15
17. Imports: contribution to growth (Intra and Extra)	17
18. Exports: contribution to growth (Intra and Extra)	19

### Goods and Services

19. Trade in goods and services as a percentage of GDP	21
20. Goods and Services (credit) – Services components	22
21. Goods and Services (credit) – growth rate	23
22. Goods and Services (debit) – Services components	23

### Charts Index

1. Rate of coverage of the imports by the exports of goods	2
2. Growth rate of exports by Group of Products and contribution to growth	7
3. Growth rate of exports by markets and contribution to growth	9
4. Growth rate of imports by markets and contribution to growth	14
5. Share of services in total trade	21
6. Growth rate of exports of goods and services and contribution to growth	22

**NOTE**

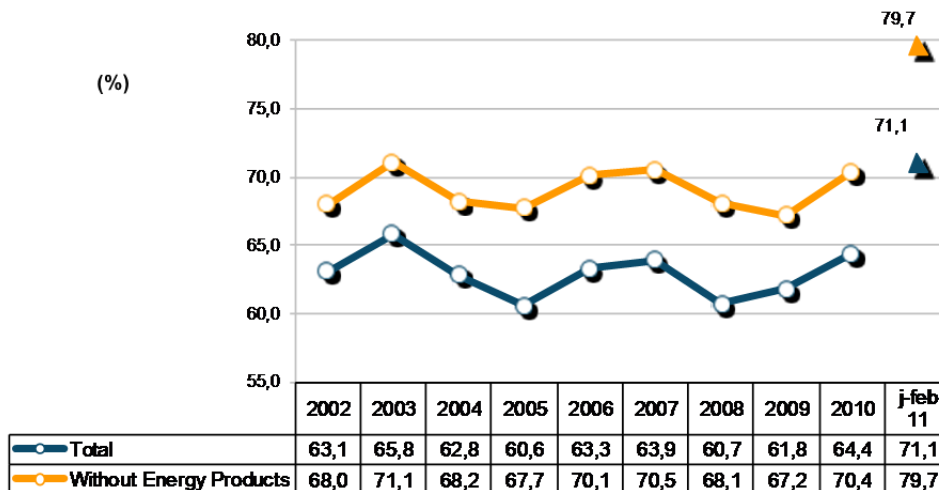

In June 2010, Statistics Portugal announced a new data series on International Trade for the period 1993-2009. This new series resulted from a review process of its methodology, which reflected the need to obtain results with greater reliability and accuracy, and includes, in addition to various methodological changes, new information reported by companies.

Since 1993, following the creation of the Single Market, the collection of information relating to international trade in goods is done by a new system supported by a compulsory survey (Intrastat declaration) for all operators, whose trade in goods with other Member States exceeds certain thresholds (assimilation threshold). Since 2005, and following the Community rules on quality control of the statistics on International Trade, a confrontation between regular information from the Intrastat system and data of an administrative nature was put in place, which included statements from Value Added Tax (VAT), as well as an analysis of the asymmetries with the statistics reported by other member countries. Following that, estimates for the total international trade, based on estimates for companies that are below the threshold of assimilation, as well as non-response of Intra-community trade started to be published.

The entry into force of “*Informação Empresarial Simplificada*” (IES) in 2007, contributed to ease the comparison of data on international trade with other sources, now made possible from 2006 onwards (reference period for the data). IES, along with information on the VAT constitutes an important source of information for the validity of the quality of the statistics on International Trade.

**Global Evolution<sup>1</sup>**

**Chart 1 – Progress of the coverage rate (fob/cif), % imports by exports of goods**

Source: GEE, based on data on International Trade statistics from Statistics Portugal (new data series for 1993-2009; provisional version for 2010 and preliminary for 2011). Estimates for operators under assimilation threshold and non-responses are included in Intra-EU trade.

<sup>1</sup> Database of international trade (Intra and Extra EU) released by Statistics Portugal (SP) for the month of January to February of 2011, corresponding to preliminary versions for both intra and extra community trade. The data for intratrade includes estimates for non-responses (value of transactions of companies for which SP has not yet received information), as well as periodic reporting of companies that are below the assimilation threshold (annual value of intra-Community below which operators are exempted from Intrastat statistical declaration, limited to delivery of the periodic tax declaration: in the case of Portugal, 200 thousand euros for arrivals and 250 thousand for dispatches in 2011). On the other hand, the current methodology considers, in addition to the regular comparison between the Intrastat declarations and Value Added Tax (VAT), the comparison with the data obtained from “*Informação Empresarial Simplificada*” (IES).

Source: GEE, based on data on International Trade statistics from Statistics Portugal (new data series for 1993-2009; provisional version for 2010 and preliminary for 2011). Estimates for operators under assimilation threshold and non-responses are included in Intra-EU trade.

## Notes:

[1] Sum of Arrivals from EU and Imports from third countries.

[2] Sum of Dispatches to EU and Exports to third countries.

[3] African Countries of Portuguese Official Language

[4] African, Caribbean and Pacific Group of States

[5] Community of Portuguese Language Countries

[6] Commonwealth of Independent States

**Table 17 - International Trade of Portuguese goods  
by geographical and economic areas (Intra + Extra-EU)  
Imports [1] - Contributions of the main partners to the global growth rate**

Period of assessment: january to february

Source: GEE, based on data on International Trade statistics from Statistics Portugal (new data series for 1993-2009; provisional version for 2010 and preliminary for 2011). Estimates for operators under assimilation threshold and non-responses are included in Intra-EU trade.

Notes:

[1] Sum of Arrivals from EU and Imports from third countries.

[2] (mar 10-feb 11)/(mar 09-feb 10) x 100 - 100

[3] Contributions to growth, shift share analysis: (rate of change) x (weight in the previous period) ÷ 100.

[4] African Countries of Portuguese Official Language

[5] African, Caribbean and Pacific Group of States

[6] Community of Portuguese Language Countries

[7] Commonwealth of Independent States

**Table 18 - International Trade of Portuguese goods**  
**by geographical and economic areas (Intra + Extra-EU)**  
**Exports <sup>[1]</sup> - Contributions of the main partners to the global growth rate**

Period of assessment: january to february

Source: GEE, based on data from the Balance of Payments Statistics of the Bank of Portugal.

Notes:

The "Exports" from the Balance of Payments (Credit) corresponds to the Exports in International Trade Statistics (sum of "Exports" of goods to the EU with the "Exports" to Third Countries).

[1] Contributions to the growth rate, shift share analysis: (rate of change) x (weight in the previous period) ÷ 100. Measures the proportion of growth of the "Export" attributable to each category specified.

[2] 12 months ending in January 2011

**Chart 6 - Growth rates of "exports" of goods and services and contribution to growth**

Previous 12 months ending in January 2011

Source: GEE, based on data from the Bank de Portugal for "Exports" of goods and services, and Statistics Portugal, for the structure of "exports" of goods. The distribution of the contribution of growth of "exports" of goods (data from the Balance of Payments, Bank of Portugal) by group of products follows the structure implicit in the database of International Trade Statistics Portugal for analogous Goods (sum of "Exports" of goods to the EU with the "Exports" to Third Countries).

Notes:

The "Exports" from the Balance of Payments (Credit) corresponds to the Exports in International Trade Statistics (sum of "Exports" of goods to the EU with the "Exports" to Third Countries).

[1] Contribution to growth, shift-share analysis: (rate of change) x (weight in the previous period) ÷ 100. The sum corresponds to the growth rate of Exports of Goods and Services over the past 12 months, according to statistics from the Balance of Payments Bank of Portugal (13,8%).
