| 2. Growth rate of exports by Group of Products and contribution to growth | 7 |
| 3. Growth rate of exports by markets and contribution to growth | 9 |
| 4. Growth rate of imports by markets and contribution to growth | 13 |
| 5. Share of services in total trade | 21 |
| 6. Growth rate of exports of goods and services and contribution to growth | 22 |

NOTE

In **June 2010**, Statistics Portugal announced a new data series on International Trade for the period 1993-2009. This new series resulted from a review process of its methodology, which reflected the need to obtain results with greater reliability and accuracy, and includes, in addition to various methodological changes, new information reported by companies.

Since 1993, following the creation of the Single Market, the collection of information relating to international trade in goods is done by a new system supported by a compulsory survey (Intrastat declaration) for all operators, whose trade in goods with other Member States exceeds certain thresholds (assimilation threshold). Since 2005, and following the Community rules on quality control of the statistics on International Trade, a confrontation between regular information from the Intrastat system and data of an administrative nature was put in place, which included statements from Value Added Tax (VAT), as well as an analysis of the asymmetries with the statistics reported by other member countries. Following that, estimates for the total international trade, based on estimates for companies that are below the threshold of assimilation, as well as non-response of Intra-community trade started to be published.

The entry into force of “*Informação Empresarial Simplificada*” (IES) in 2007, contributed to ease the comparison of data on international trade with other sources, now made possible from 2006 onwards (reference period for the data). IES, along with information on the VAT constitutes an important source of information for the validity of the quality of the statistics on International Trade.

In **May 2011**, Statistics Portugal disseminated the definitive results concerning the year of 2009, in compliance with the Revision Policy of International trade, implemented in 2010. Also, the magnitude of an error detected on the data declared by an enterprise led Statistics Portugal to make an extraordinary revision on the data from 2007 and 2008 (Intra-EU Trade), which is reflected in this publication.

Global Evolution¹

**Chart 1 – Progress of the coverage rate (fob/cif),
% imports by exports of goods
Intra + Extra EU Trade**

Source: GEE, based on data on International Trade statistics from Statistics Portugal (most up-to-date versions available). Estimates for operators under the assimilation threshold and non-responses are included in Intra-EU trade.

¹ Database of international trade (Intra and Extra EU) released by Statistics Portugal (SP) for the period of January to June of 2011, corresponding to preliminary versions for both intra and extra community trade. The data for intratrade includes estimates for non-responses (value of transactions of companies for which SP has not yet received information), as well as periodic reporting of companies that are below the assimilation threshold (annual value of intra-Community below which operators are exempted from Intrastat statistical declaration, limited to delivery of the periodic tax declaration: in the case of Portugal, 200 thousand euros for imports from EU and 250 thousand for exports to EU in 2011). On the other hand, the current methodology considers, in addition to the regular comparison between the Intrastat declarations and Value Added Tax (VAT), the comparison with the data obtained from “*Informação Empresarial Simplificada*” (IES).

Source: GEE, based on data on International Trade statistics from Statistics Portugal (most up-to-date versions available). Estimates for operators under the assimilation threshold and non-responses are included in Intra-EU trade.

Notes:

- [1]Sum of Imports from EU and Imports from third countries.
- [2]Sum of Exports to EU and Exports to third countries.
- [3]African Countries of Portuguese Official Language
- [4]African, Caribbean and Pacific Group of States
- [5]Community of Portuguese Language Countries
- [6]Commonwealth of Independent States

**Table 17 - International Trade of Portuguese goods
by geographical and economic areas (Intra + Extra-EU)
Imports [1] - Contributions of the main partners to the global growth rate**

Period of assessment: January to June

Source: GEE, based on data on International Trade statistics from Statistics Portugal (most up-to-date versions available). Estimates for operators under the assimilation threshold and non-responses are included in Intra-EU trade.

Notes:

[1] Sum of Imports from EU and Imports from third countries.

[2] 12 months ending in June 2011

[3] (jul 10-jun 11)/(jul 09-jun 10) x 100 - 100

[4] Contributions to growth, shift share analysis: (rate of change) x (weight in the previous period) ÷ 100.

[5] African Countries of Portuguese Official Language

[6] African, Caribbean and Pacific Group of States

[7] Community of Portuguese Language Countries

[8] Commonwealth of Independent States

**Table 18 - International Trade of Portuguese goods
by geographical and economic areas (Intra + Extra-EU)
Exports ^[1] - Contributions of the main partners to the global growth rate**

Chart 5 – Share of Services in total Trade

Source: GEE, based on data from the Balance of Payments Statistics of the Bank of Portugal.

Notes:

The Exports from the Balance of Payments (Credit) corresponds to the Exports in International Trade Statistics (sum of Exports of goods to the EU with the Exports to Third Countries).

The Imports from the Balance of Payments (Debit) corresponds to the Imports in International Trade Statistics (sum of the Imports of goods from the EU with the Imports from Third Countries).

Source: GEE, based on data from the Balance of Payments Statistics of Banco de Portugal.

Notes:

[1] 12 months ending in may 2011

[2] $(\text{jun } 10\text{-may } 11) / (\text{jun } 09\text{-may } 10) \times 100 - 100$

[3] Contributions to growth, shift share analysis: $(\text{rate of change}) \times (\text{weight in the previous period}) \div 100$. Measures the proportion of growth of Imports attributable to each category specified.

Chart 6 - Growth rates of exports of goods and services and contribution to growth
Previous 12 months ending in may 2011

Source: GEE, based on data from the Bank de Portugal for Exports of goods and services, and Statistics Portugal, for the structure of exports of goods. The distribution of the contribution of growth of exports of goods (data from the Balance of Payments, Bank of Portugal) by group of products follows the structure implicit in the database of International Trade Statistics Portugal for analogous Goods (sum of Exports of goods to the EU with the Exports to Third Countries).

Notes:

The Exports from the Balance of Payments (Credit) corresponds to the Exports in International Trade Statistics (sum of Exports of goods to the EU with the Exports to Third Countries).

[1] Contribution to growth, shift-share analysis: $(\text{rate of change}) \times (\text{weight in the previous period}) \div 100$. The sum corresponds to the growth rate of Exports of Goods and Services over the past 12 months, according to statistics from the Balance of Payments Bank of Portugal (14,2%).
